

# BIRD XTOP

**CONCENTRATED ORGANIC BIRD REPELLENT**

**BIRD XTOP** is a unique all-natural organic Bird Repellent made with years of research and validation.

BIRD XTOP is non-toxic given its 100% natural ingredients and yet effective repellent in its class.

### Targeted Birds :

**BIRD XTOP** works as an effective repellent for birds like Pigeons, House Sparrows, Starlings, Gulls, Blackbirds, Cowbirds, Grackles, Woodpeckers, Crows, Ravens, and many more.

BIRD XTOP offers right solution to stubborn bird menace where traditional methods like nets, spikes, glues, gel trappings, ultrasound repellents, and poisonous baits have failed.

### How BIRD XTOP works ?

BIRD XTOP by virtue of its unique blend of ingredients, works in four different ways to repel birds.

- BIRD XTOP works by leaving an odor to irritate the birds, thus driving them away. They often remember to not return to the area because they affiliate or correlate the unpleasant odor with the given area or plants.
- One ingredient in BIRD XTOP irritates birds' mucous membranes causing them to avoid the area.
- One another ingredient in BIRD XTOP creates mild convulsions in birds brain making bird flock fly away from that area.
- BIRD XTOP is formulated in a unique natural color, which is only visible to birds. Birds can recognize the application area to be a problematic area and stay away.

### Major ingredients in BIRD XTOP :

BIRD XTOP is made with Bio ester complex, Bio flavinoid complex, Bio enzyme complex in suitable preservative(IPA).

### Suggested application areas :

BIRD XTOP offers perfect solution wherever bird menace and nuisance places like Airports, Railway stations, Warehouses, grain drying area, Harbors, Ports, Ships, lawns, Parks, Golf courses, Building complexes, Apartments, Fields, Gardens etc.

## Usage Directions :

BIRD XTOP can be used by spray application method.

## Spraying :

Take BIRD XTOP concentrated liquid and dilute.

It is advised to add 2 parts of water to one part of BIRD XTOP liquid. Use to suitable sprayer and spray uniformly over the targeted area.

## Additional suggestions for effective spraying :

BIRD XTOP tank Mix can safely be sprayed on trees, bushes, buildings, pipes, beams and anywhere else bird activity is detected.

For the most effective results, spray tank mix once a week for 4 consecutive weeks, and then monthly thereafter as needed.

Tank Mix can be mixed and applied using any compressed air sprayer. An extension wand can be helpful for reaching areas higher than 6' without the use of ladders.

BIRD XTOP can be sprayed with foggers and mist sprayers too.

## To conclude BIRD XTOP is....

- Children and pets safe.
- No cruel killing of Birds.
- No cruel Bird trapping with Glues.
- Environment friendly product.
- Ease of application no need of skilled people.
- Low cost treatment.
- Simple application via ground, aerial spraying or fogging.
- Effective for up to two weeks for outdoor applications—and much longer for indoor!
- BIRD XTOP can be a trusted partner to fight against bird menace.
